**# Negative COVID-19 swab test taken within 72 hours before departure from place of embarkation**

Individual previously diagnosed with COVID-19 infection will still be required to take a COVID-19 PCR test within 72 hours before departure for Singapore. The 72 hours start from the first leg of the journey, for instance from the first leg of connecting flights taken to reach Singapore.

If the pre-departure COVID-19 swab test result is positive, the recovered individual must submit documentary proof of his/her past diagnosis of COVID-19, based on his/her first ever positive PCR test result. The date of the first ever positive PCR test result must be between 22 to 180 days prior to the date of arrival in Singapore.

Please note that individuals will be denied boarding for flights bound for Singapore if they have a recent diagnosis of COVID-19 infection in the past 21 days.

**NOTE:**

Singapore only accepts test results from labs in the country that are [internationally accredited or recognised](#) by the respective Government. The test result memo must state the negative test result in English, date that the test was taken, traveller's name and either Date of Birth or Passport Number as stated in the passport. If the personal details used are not stated in the passport, the traveller should have the relevant identity document on hand for verification.

**Chargeable Cost**

The cost incurred for the COVID-19 swab test is chargeable for all travellers.

The cost incurred for the SDF is chargeable for all travellers, except Singapore citizens or permanent residents who have left Singapore before 27 March 2020 and return to Singapore on/ before 31 December 2020.
