Detailed requirements for pass holders entering Singapore from Group 3 or all other countries/regions

They must comply with the following:

1. Take a COVID-19 polymerase chain reaction (PCR) test* **within 72 hours before departure**

   - Pass holders who have recovered from COVID-19 are also subject to this requirement.
   - Pass holders need to present a valid negative test result, in English and from laboratories that are internationally accredited or recognised by the respective countries' or regions' government, to enter Singapore. The test memo must also state these details:

     o Test result
     o Date of COVID-19 PCR test
     o Pass holder's name and either date of birth or passport number, as stated in their passport. If the particulars on the memo are not in the passport (e.g. memo states identification number, instead of passport number), the pass holder must produce the relevant identification documents for verification.

2. **Take an on-arrival COVID-19 test*** in Singapore
   - Please register and pay for the pass holder's test ($160 including GST) **before he/she arrives in Singapore**. Otherwise, he/she may be denied entry into Singapore. Your subsequent entry applications may also be rejected.

3. **Serve a 14-day Stay-Home Notice (SHN)** at SHN dedicated facilities (SDFs)
   - Once they arrive, they will be informed of the location and sent directly to the facilities.
   - For pass holders who meet certain conditions, you can request for them to serve their 14-day SHN at a place of residence during the entry application, instead of SDFs.
   - For pass holders staying in dormitories: After the 14-day SHN, they must undergo an additional 7-day testing regime at designated facilities.

4. **Take a COVID-19 swab test*** before SHN is over
   - The pass holder will be notified of the test appointment details by SMS.
   - During the entry application, you will be asked to pay for the following:
     o Pass holder's SDF stay ($2,000 including GST)
     o Swab test (up to $200 including GST)

Additional procedures for pass holders with travel history to India, South Africa or United Kingdom:

- **For those entering Singapore from 22 April 2021, 23:59 hours,** after their 14-day SHN at SDFs, they must serve an additional 7-day SHN at a place of residence (only occupied by them or their family) or hotel. They must take another COVID-19 swab test* before the additional 7-day SHN is over.
- (Only for pass holders from India) For those who have not completed their 14-day SHN **by 22 April 2021, 23:59 hours**, they will also be subject to the additional 7-day SHN.

Children 6 years old and below this year are exempted from the COVID-19 tests.
